

# Silver Award for a Silver Jubilee 'We Are The Collection'

**'We Are The Collection' the AkzoNobel Art Foundation's catalog, showcasing 25 years of collecting in the guise of a 428-page colorful magazine has been rewarded with a prestigious silver European Design Award.**

The magazine, designed by Kummer & Herrman (K&H), celebrates the 25-year anniversary of the AkzoNobel Art Foundation. Artists, writers, poets, critics, cartoonists and curators, each with their own perspective, reflect on the collection —beauty, zeitgeist, inclusivity and the importance of art in one's life. A silver award for a silver jubilee. The European Design Awards are annual awards for outstanding work in the communication design field. The submissions are judged by a panel of representatives from fifteen European design magazines (critics and journalists).

**K&H is known for its strong, substantial and editorial involvement. For them, design is not only about the surface but should reveal and enhance the story being told.**
